OWNING A CASINO?

ETHER EMPIRE INTRODUCTION

EtherEmpire is the first **licensed and legally operating community-owned** casino platform offering **revenue share** and utilizing **advanced gamification** to achieve superior player retention.

Whether through our **web platform** or our easy-to-use **Telegram interface**, we offer a wide range of slot games, live dealer games, and an extensive sportsbook. Combined with highly competitive bonuses, exciting tournaments, and our unique **branching quest system**, EtherEmpire offers the next level of entertainment.

WWW.ETHEREMPIRE.COM

OUR VISION

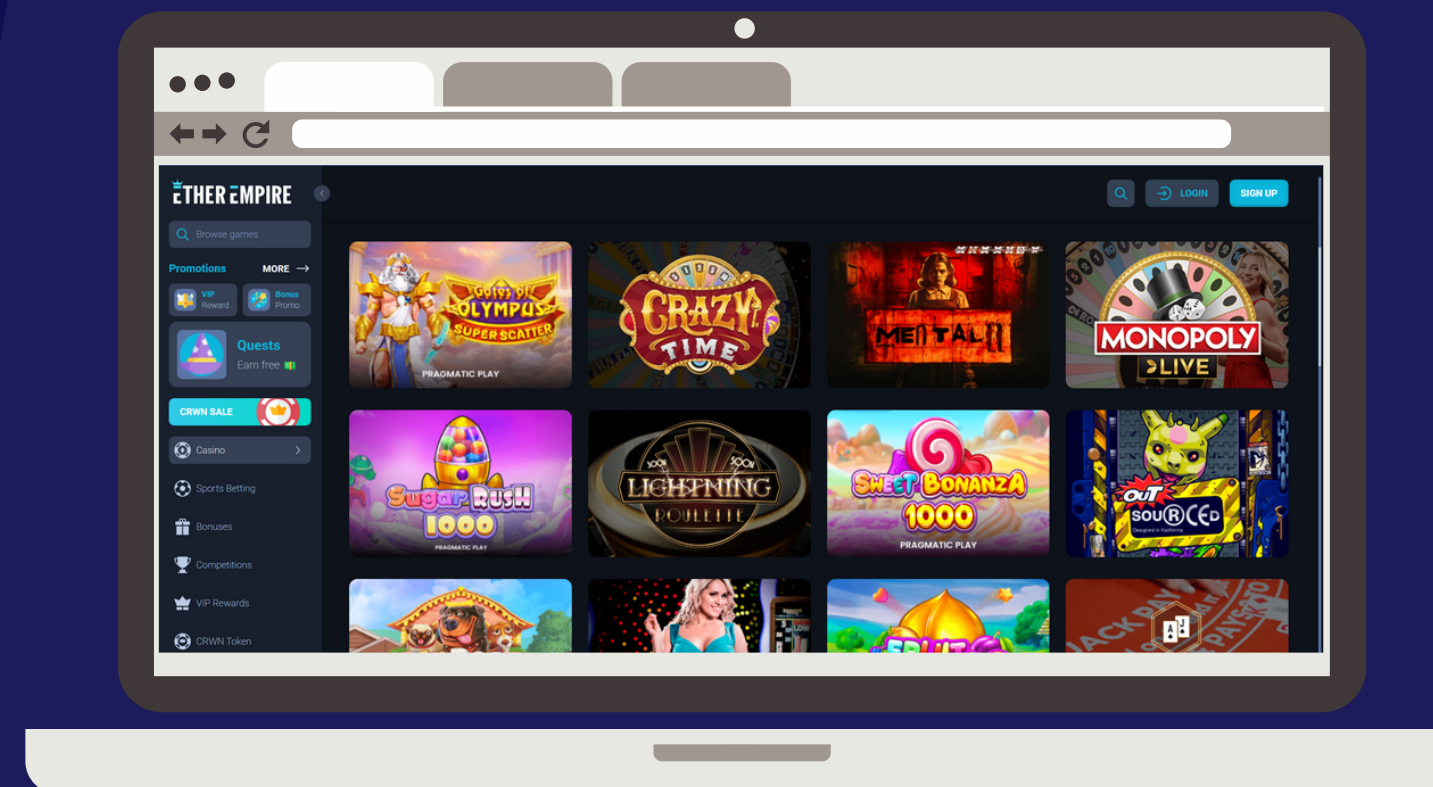

The founders of EtherEmpire came together from different corners of the tech space, but were driven by the same values. Two friends with vast experience in their respective fields had a dream. One entrepreneur, working for years on successful gambling projects, convinced the other to leave behind a decade of stability at a FAANG corporation in pursuit of building something special. Uniting these experiences, we have aimed to bring something new to the gaming industry, inspired by the true community nature of crypto.

We've always believed that the best sort of business is where everyone involved profits. A true win-win scenario. We know that nothing beats the concentrated effort of people who share mutual interests. We invite everyone to be a crucial part of the EtherEmpire story - a de facto owner. This is why we emphasize the "Have you ever dreamt of owning a casino?" signature line - here we offer exactly this opportunity for our community through a transparent revenue share program and a down-to-earth, community-first approach, where our success is your success.

ETHER EMPIRE CASINO

We've partnered up with dozens of top-tier providers to bring thousands of fun games to our players, including slots, live tables such as roulette, blackjack, among many others. Live game shows like the famous Monopoly or Crazy Time provide extra thrill when you get bored with the classics. Seasonal promotions, tournaments, and other engaging activities await our players.

ETHER EMPIRE TELEGRAM CASINO

Our Telegram casino extension is an alternative to the web-based platform, available through the popular mobile application and designed to reach an entirely new bracket of players. We offer seamless one-click sign-up through a Telegram bot that grants full access to our game services. This allows us to reach more members of the crypto-scene and the CIS market, where Telegram is the number one messaging app.

WHAT MAKES US
UNIQUE?

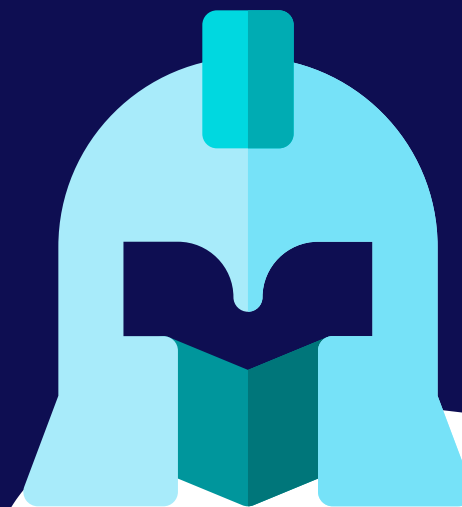

CORE CONCEPTS

**COMMUNITY
OWNERSHIP**

**REVENUE
SHARE**

**ADVANCED
GAMIFICATION**

ETHER EMPIRE REVSHARE

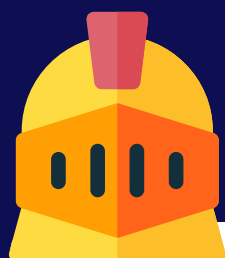

UP TO 50% NGR GOES BACK TO
\$CRWN TOKEN HOLDERS.

Our business model is centered around fairness and transparency. We invite all \$CRWN holders to be a part of our success story. Thus, we introduced our token staking program, which opens the possibility for our community members to shape the future of our platform through a DAO, and gives them the eligibility to earn weekly passive revenue through our generous revenue share scheme. We redistribute 50% of the total net gaming revenue in ETH using a two-fold approach: 40% is shared among staking pool participants, and 10% used to support \$CRWN's chart by constant buybacks and token burns, resulting in increased liquidity and a gradually decreasing circulating supply.

EXAMPLE CALCULATION

MAKE YOUR OWN SCENARIOS USING THE “CALCULATOR” FOUND ON OUR TOKEN SALE PAGE.

Revshare Scenario:

- To participate in the revshare program, \$CRWN tokens have to be staked
- APR calculated from weekly payouts in ETH
- Amount distributed is dependent on the platform revenue
- We consider a sample, realistic scenario, where the casino is moderately successful
- We estimate approximately 25% of the total supply is staked and locked by token holders for a median of 2 months in this example

Potential Passive Income Scenario:

EtherEmpire generates \$100,000 NGR (net gaming revenue) per week (*translates to approximately \$10.000.000 monthly wager volume by players on the platform*). 10% (\$10.000 is used to buy back and burn \$CRWN from the market and support the chart, and decrease the circulating supply), 40% (\$40.000) of it is automatically distributed among staking pool participants. **Adam purchases 200k CRWN tokens** during Phase 1 of the token sale period **for \$5000** and **decides to stake** his tokens. Not only has his portfolio value **already increased to \$7792** (launch price \$0.03896), but he can earn stable **passive income**.

Lock Period	Share of Pool	\$ / week	Simple APR	Time to ROI
no lock	0.615%	\$246.15	256%	4.69 months
1 month	0.738%	\$295.38	307%	3.91 months
3 months	0.862%	\$344.62	358%	3.35 months
6 months	1.046%	\$418.46	435%	2.76 months
12 months	1.231%	\$492.31	512%	2.34 months

ETHER EMPIRE

GAMIFICATION

PLAYER RETENTION IS THE BACKBONE OF EVERY SUCCESSFUL CASINO. WE OFFER A NEW APPROACH.

Bonus System:

EtherEmpire offers competitive bonus packages for newcomers and regulars alike. With deals that beat rivaling casinos, both our players and our affiliate partners can feel appreciated.

Daily, Weekly & Monthly Tournaments:

Our players are encouraged to challenge each other in our diverse recurring and seasonal competitions. Their participation is lavishly rewarded in cash and tangible prizes.

VIP Program:

Our VIP/loyalty program is designed to maximize player retention through gamified progression and tailored rewards. By offering tier-based benefits, cashback, and exclusive events among many other perks, we foster sustained engagement and consistent revenue flow - transforming casual players into loyal, long-term participants in the ecosystem.

BUT THE MOST IMPORTANT ELEMENT IS....

ETHER EMPIRE EMPIRE QUESTS

Empire Quests transform routine gameplay into rewarding missions. Players complete guided objectives and rotating themed challenges to earn exclusive rewards. With constantly refreshed content - from limited-time events to holiday adventures - there's always something new to explore. This system not only enhances player retention and platform familiarity but also creates a flexible framework for promoting partner games and upcoming features. It is a core engagement engine driving both loyalty and revenue growth.

\$CRWN

TOKENS?

ETHER EMPIRE MARKET ANALYSIS

The online gambling industry is one of the fastest-growing digital entertainment sectors, surpassing \$78 billion in global annual revenue in 2024, with forecasts projecting a 9–11% compound annual growth rate (CAGR) through 2030, up to \$154 billion. This growth is fueled by increasing internet access, mobile adoption, and progressive regulation across Europe, Asia, and LATAM. By merging blockchain technology with iGaming, platforms like EtherEmpire bring ease of access, instant crypto transactions, and transparent on-chain revenue distribution. The business model remains highly profitable and scalable, as digital casinos operate with minimal overhead and near-zero geographic limitations compared to traditional venues. Crypto integration enhances trust, speed, and borderless accessibility, appealing to both traditional gamers and the emerging Web3 demographic. With data-driven personalization, gamified retention systems, and community-driven staking rewards, EtherEmpire turns its players into long-term stakeholders via the \$CRWN token. The combination of a proven market, transparent operations, and sustainable tokenomics positions EtherEmpire for strong profitability and enduring relevance in a rapidly evolving industry.

COMPETITOR ANALYSIS

THESE ARE ROUGH ESTIMATES BASED ON AVAILABLE DATA ONLINE.

The logo for Stake, featuring the word "Stake" in a black, cursive script font.

Founded in 2017, the market leader. Public report suggests \$4.7 billion of GGR in 2024, estimated monthly volume ~\$8-13 billion, multi-million monthly active users.

The logo for ROLLBIT, featuring the word "ROLLBIT" in a bold, black, sans-serif font. The "O" is replaced by a yellow circle with a black outline and a small black dot in the center.

Founded in 2020, a casino solution with its own token. Public report suggests ~1-3 billion of estimated monthly volume and a player count in the high 100Ks–low millions.

The logo for ROOBET, featuring a yellow circular icon with a black outline and a small black dot in the center, followed by the word "ROOBET" in a bold, yellow, sans-serif font.

Founded in 2018, estimated monthly volume in the multi-hundreds of millions to low billions, player count 100Ks–low millions.

The logo for Duelbits, featuring a black icon of a die with a cross, followed by the word "Duelbits" in a bold, black, sans-serif font.

Founded in 2020, the estimated monthly volume is ~150-400 million, \$5-15 million net revenue per month, and player count in the low 100Ks.

ETHER EMPIRE THE \$CRWN TOKEN

CROWN (\$CRWN) is an Ethereum-based token that powers the EtherEmpire ecosystem. Its smart contract has undergone a full smart contract audit to ensure transparency and security. \$CRWN provides several utilities, some of which are unlocked through staking. An initial token sale will introduce \$CRWN to the market, supporting liquidity, casino bankroll, operation costs, and extensive marketing.

Token Utilities:

- **Weekly Revenue Share:** 40% of the NGR is shared in a staking pool
- **Deflationary Mechanism:** 10% of the NGR is used to buy \$CRWN and burn to decrease supply
- **DAO Governance:** holders are granted voting power in decision-making
- **Improved Player Rewards**

WWW.ETHEREMPIRE.COM

PUBLIC SALE

Sale Details:

- **Accepted currencies:** ETH, USDT, USDC
- Web-based system with a unique deposit address
- An **affiliate program** that shares 10% of the raised amount with participants
- Fundraising succeeds regardless of the raised amount, the **token allocation ratio changes proportionally**
- Purchased tokens distributed at the end of the sale period to your receiving wallet

Token Pricing:

- Round 1: **\$0.025** → raises \$250,000 (+55.83% on launch)
- Round 2: **\$0.0275** → raises \$275,000 (+41.66% on launch)
- Round 3: **\$0.030** → raises \$300,000 (+29.86% on launch)
- Round 4: **\$0.033** → raises \$330,000 (+18.05% on launch)
- Round 5: **\$0.036** → raises \$360,000 (+8.21% on launch)

Pricing steps up by every 10m \$CRWN sold.

Launch Details:

- **Launch price** above token sale pricing (\$0.03896)
- **Initial liquidity pool:** 17.5m \$CRWN token paired with 45% of the raised amount, 18.9% LQ to MCAP ratio
- Uniswap V2 pool **locked for 2 years**
- **Audited, renounced** smart contract

ETHER EMPIRE PUBLIC SALE

Summary:

- Public sale through our own system
- 5 rounds, price hikes by every 10 million \$CRWN sold
- Fundraising goal: \$1.515m
- Unsold tokens will be burned before launch
- Launch price fixed to \$0.03896, meaning everyone participating in the token sale will be automatically in a profit

JOIN THE PUBLIC SALE

Pricing Structure
Increasing by every 10m \$CRWN token sold

ETHER EMPIRE STAKING

\$CRWN holders can earn passive income - weekly distributed in ETH - and take part in governance by staking their tokens. Rewards are based on the staked amount, boosted by duration multipliers that increase yield for long-term participants. This creates a balanced system that rewards commitment and supports sustainability by decreasing circulating supply.

ROI CALCULATOR

Staking Periods:

- **No commitment** - weekly payout without staking power boost
- **1 month staking** - weekly revshare payout, 20% staking power boost
- **3 months staking** - weekly revshare payout, 40% staking power boost
- **6 months staking** - weekly revshare payout, 70% staking power boost
- **12 months staking** - weekly revshare payout, 100% staking power boost

DAO voting power is not granted to staker pool participants without commitment.

WWW.ETHEREMPIRE.COM

ETHER EMPIRE SUMMARY

- **EtherEmpire** is a **licensed, legally operating** web- and Telegram-based **casino** offering slots, live dealer games, game shows, and an extensive sportsbook
- Founders are **seasoned developers** and **entrepreneurs** who have previously gained experience in **running successful gambling ventures** and working for **FAANG**
- The main differentiators / **USPs** are transparent operations, **50% community ownership** (translated to **governance**, **40% revenue share** through staking, and **10% chart support** through deflationary buyback and burn), data-driven operations, and **advanced gamification** through a unique branching **quest system**, and **advanced player retention** methods
- The **CROWN (\$CRWN)** token serves as the backbone of this project, which is obtainable through a hard-capped **public sale** for a limited time before its trading launch
